HVP TOTAL = 521 Home Visits
How many years in education as of August 2022?

- 0-3 yrs
- 4-6 yrs
- 7-10 yrs
- 11-14 yrs
- 15-20 yrs
- more than 20 yrs
I have learned about the home life of my students

I have learned about the family's ability to support their child's learning at home

I have learned my student's interests outside of school

I have learned what each family needs so they can support learning at home

I have learned how to support each family in extending learning from my classroom to their living room

As a result of my participation with Home Visit Partnerships...

Overall, since you started visiting your student's families, what changes have you observed in the families you visited?
After completing home visits, I believe the following about my students...

- They can learn anything they put their hearts and minds to
- They are not limited by their current circumstances
- They can get excited about learning when they know I care about them
I have empathy for my students and their families

I can encourage each student

I can positively impact student learning regardless of their home environment

I have an important role to play in challenging social inequalities

After conducting home visits, I believe the following about myself...

- Strongly Agree

- Disagree
- Strongly Disagree
To what extent do you agree or disagree with the following statements...

Overall, I am satisfied with my Home Visit Partnerships experience

I would recommend Home Visit Partnerships to other educators
Much more satisfied

Somewhat more satisfied

No change

Somewhat more dissatisfaction

Much more dissatisfaction
To what extent do you agree or disagree with the following statements about your child’s teacher visiting your home?

The teacher’s visit to our home was a positive experience for me

The teacher’s visit to our home was a positive experience for my child

I am very happy that the teacher was able to see my child in our home environment

Next school year, I would be open to a home visit from my child’s teacher
As a result of having your child’s teacher visiting your home, have any of the following gotten better or worse?

- My comfort talking with my child’s teacher
- My child’s connection to their teacher
- My child’s eagerness to go to school
- The emotional support that the teacher provides to my child
- How welcome you feel at your child’s school
- My level of trust of the teacher
- My comfort level supporting my child's learning at home
- My belief that the teacher sees me as a partner in my child's learning

I appreciated the home visit and seeing the teacher in a relaxed environment. *Looking forward to many more.*

I think home visits are a great way to learn how my child is doing at school plus I get to know the teacher better. *I would like for my other kids’ teachers* to do the same.

My child was so *excited* to see his teachers at our house.

**FAMILY FEEDBACK ABOUT HOME VISITS**
Loved the visits.

More frequent visits

We look forward to more visits in the future

Everything was great!

It’s more personal and in a way makes the parent/teacher relationship more comfortable.

Gives some time for the parent and teacher to interact as well as the student.

The experience overall I think is beneficial to the student and parent.

Looking forward to many more.

The teacher saw me more so as a partner in my child’s learning.

Love the open line of communication.

Just to know how we can be of help at home to either the teacher or student.
Child feels more confident to see that parents and teachers also carry good communication.

These visits make children and parents have a better relationship with teachers.

More trust in the teacher.
Confidence.

When the teacher comes my son feels happy.

It helps me...to help him with his apprenticeship.

Work together with my daughter’s teacher and develop a better environment for student learning.

It helps me make my daughter feel safer in school.

For my part I need to put into practice the advice they give me and that my son wants to do it to improve.

I think it would be more beneficial to receive more visits.

Maintain more communication about my son and helped me a lot.

Looking for a strategy of working together.

to know each other better and know that teachers are interested in their students.
